Investors appoint Intel Suisse to investigate financial losses in The Classic Car Fund

A number of irate investors have engaged Intel Suisse to investigate The Classic Car Fund ("TCCF"), an investment fund registered in St Vincent & Grenadines, investing in Classic Cars.

Lead by Investment Manager Filippi Pignatti Morano, Swiss-based, the fund collapsed and a court-appointed liquidator has taken over all operations of the TCCF, in order to maximise returns to invested shareholders.

Allegations abound of car ownership disputes, a major loan of all TCCF's liquidity to a large shareholder, and possible overpricing of car purchases, all appearing to have contributed to investor losses.
