Hello Mr. Mapley,

Thank you for your email. Our records confirm that the requester only requested Dates of Attendance which does not include Degree verification with the National Student Clearinghouse. Additionally, we have confirmed that you were awarded a Master of Business Administration degree on June 14, 1985. Please find attached the degree verification letter. Please have future requesterâ€™s to request a Degree verification in addition to Dates of Attendance at the University of Chicago.

Warm regards,
Gail

Gail Middleton

Dear Alumni Office,

Perhaps you could assist me in a very embarrassing situation - I attach a copy of my 1985 MBA degree, as well as a statement from the National Student ClearingHouse that shows clearly that I enrolled only for the degree (and never completed the course nor was therefore awarded the MBA).

I am presently embroiled in a huge shareholder control battle, I am a director of a hedge fund and now my opposition is brandishing the Verification Certificate and calling me a liar...

Hard to think after spending all that money in 1984/85 that my degree status is not even recorded properly at the NSC portal.

Please confirm to my colleague Mr Fedeles (copied herein) that I was awarded my degree and contact the NSC immediately, requesting that they correct their records and send me a confirming verification certificate asap.

Thank you

David Mapley, MBA
